Focus on the Family

Come to this FREE simulcast and experience practical teaching in a safe and supportive community as we work to equip families, churches, and professionals to better serve children impacted by adoption and foster care.

Featuring Trust-Based Relational Intervention® methods developed by Dr. Karyn Purvis and Dr. David Cross from the Karyn Purvis Institute of Child Development, this conference helps bring attachment and connection in families.

Children who have experienced early loss, trauma, or neglect experience changes in their bodies, brains, behaviors, and belief systems. Trust-Based Relational Intervention® offers practical tools for parents, caregivers, teachers, or anyone who works with children to meet their unique needs and address the whole child.
